Top 3 High-Impact Remediation Actions

Action Step 01: Deploy /llms.txt endpoint outlining core business services for AI search crawlers

Estimated Fix Time: < 20 mins • Direct Impact: Unlocks Google AI Citations & stops mobile visitor bounce.

Action Step 02: Embed 3-5 structured FAQ pairs with FAQPage schema markup for AI Overviews

Estimated Fix Time: < 20 mins • Direct Impact: Unlocks Google AI Citations & stops mobile visitor bounce.

Action Step 03: Inject comprehensive JSON-LD LocalBusiness markup (NAP, geo-coordinates, catalog, hours)

Estimated Fix Time: < 20 mins • Direct Impact: Unlocks Google AI Citations & stops mobile visitor bounce.

Strategic Technical Consultation & Architecture Support

Your site loads in 0.8s, but adding structured LocalBusiness JSON-LD will unlock Google 5-star rich snippets.
