Top 3 High-Impact Remediation Actions

Action Step 01: Craft a high-intent 150-character meta description with a clear call to action Estimated Fix Time: < 15 mins • Direct Impact: Unlocks ChatGPT, Claude & Perplexity service citation.
Action Step 02: Deploy /llms.txt endpoint outlining core business services for AI search crawlers Estimated Fix Time: < 20 mins • Direct Impact: Enables Google AI Overviews and Gemini to cite site answers.
Action Step 03: Embed 3-5 structured FAQ pairs with FAQPage schema markup for AI Overviews Estimated Fix Time: < 25 mins • Direct Impact: Eliminates mobile lag and prevents high-intent visitor bounce.

Strategic Technical Consultation & Architecture Support

Your website currently isn't indexed by AI Search engines (like ChatGPT and Google AI Overviews) because it lacks an /llms.txt manifest and structured Q&A entity data.
